

RSI DISPLAYS

RSI designs and manufactures LED Displays for our products such as Timing and Tote Boards. This allows us flexibility and cost savings over using other products on the market.

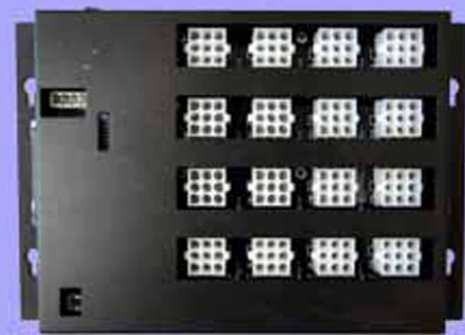

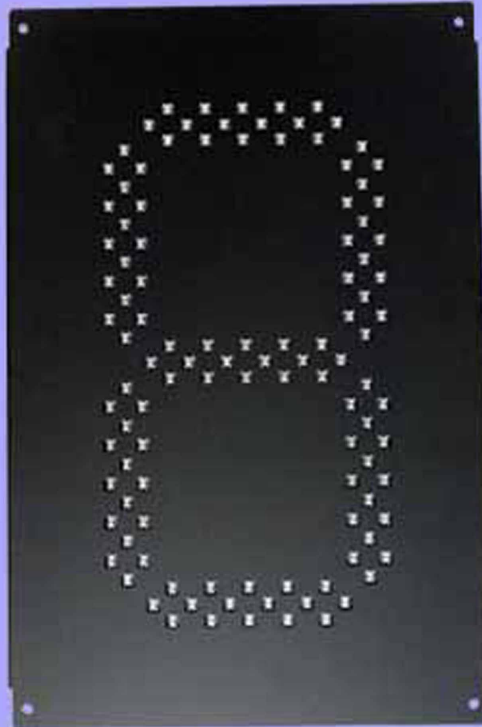

We realize the potential benefit to RSI and others in this industry if we make our products and services available to all.

We offer standard 7" or 15" 7 Segment displays or our Matrix model which allowing Alpha numeric output. Standard colors are amber or red. Each display includes a weather tight front cover and back plate.

Each RSI controller manages up to 16 digits for the 7-Segment, or 30 Matrix Displays.

We offer sales or leasing, with or without installation or service. The choice is yours.

Tell us how we can help you succeed. Call today.
